

Meetings agenda 7

#Meetings Agenda

Group: 21

Date: 24/9-18

Chair: Erik Gunnarsson

Participants: Yazan Ghafir, Erik Gunnarsson, Mohamad Almasri, Carl Östling

##Objectives

- Define goals for this week/sprint

- Pass out concrete assignments

##Reports from previous meeting

- Carl fixed a new multi-module project structure using Maven

- Erik updated some user stories on trello with acceptance criteria and tasks

##Discussion items

- Next sprint defined

##Outcomes and assignments

- Add user stories (All members, Yazan makes sure some are added)

- Update all user stories to have acceptance criteria AND tasks (Code well documented and code tested needs to be in all user stories acceptance criteria)(All members)

- Create a working server in the new project structure (All members (extra coding meeting tomorrow tuesday between 10.00 AM and 15.00))

- Create a working client in the new project structure (All members (extra coding meeting tomorrow tuesday between 10.00 AM and 15.00))

- Create a working user/userprofile structure (needs to have the ability to have friends, needs to sent log in info to server, server needs to identify log in info, server must have a saved list of registered users, server needs to send some identifier back to the client for the logged in account) (All members (extra coding meeting tomorrow tuesday between 10.00 AM and 15.00))

- Create a working message class/structure (String is the main criteria for this weeks sprint) (All members (extra coding meeting tomorrow tuesday between 10.00 AM and 15.00))

- Create a working chatroom structure (server needs to be able to save data from a session) ()

- Test your code!!! (All members)

- Fix Travis (Carl)

- Fix findbugs (Yazan & Mohamad)

---RAD assignments---

- Add user stories to the User stories part of RAD (All members)

- Add UI sketches to the User interface part of RAD (Yazan and Mohamad)

##Wrap up

Meetings agenda 7

- Next meeting should address OOP principles
