Meeting Agenda

Group: 21
Date: 2018-10-22
Chair: Carl Östling
Participants: All members

Objectives (5 min)

- Discuss what to do this week in order to finalize the project before deadline.

Reports (15 min) from previous meeting

- Carl has been working on code cleanup and implemented some extra functionality from the User Story (eg. Mute/Unmute). Has moved
        some logic from the controller to the model. Has been eliminating dependencies in the server module.
        Has been working on building and executing the .jar files.

- Erik has been working on code cleanup, implemented File-sharing via messages according to the User Story.
        Has been eliminating dependencies in the server module. Has been working on building and executing the .jar files.

- Yazan has been eliminating dependencies in the client and worked on the GUI and added emojis-functionality.

- Mohamad has been eliminating dependencies in the client worked on implementing voice-messages. It's nearly working now.

Discussion items (35 min)

- We need to work on finalizing the documents aswell as finalizing the code to prepare for the final deadline of the project.
- We need to work on the peer-review, a document has been set up for this on Overleaf LaTeX.

Outcomes and assignments (5 min)

- Carl will be working on code cleanup and the documents and implement some more user stories before deadline if there is time.
- Erik will be working on code cleanup and the documents and implement some more user stories before deadline if there is time.
- Yazan will apply observer design pattern on the userlist in the server and work on fixing the voice-messaging.
- Mohamad will continue working on making the voice-messaging work correctly.

Wrap up

Next meeting will be on friday.
